

WANTED

DEAD... OR NEARLY DEAD

'Baz' Cereus

AKA: Bacillus cereus

Last Seen: Rice, pasta – 'vomiting' strains; meats, milk and dairy products, fish, vegetables – 'diarrhoeal' strains.

Bounty Hunters' Advice:

- **Strict control of time and temperature in cooking, cooling, chilling and reheating**
- **Particular care is needed in the storage and reheating of cooked rice**
- **Keep raw and cooked or ready-to-eat foods separate**
- **Clean food contact surfaces and equipment thoroughly**
